Abdulrahman Elsayed Ouf

.NET FULL-STACK DEVELOPER

Objective

Results-driven full-stack developer with 2 years of experience developing and optimizing dynamic web applications. Proficient in building scalable, and visually engaging solutions that deliver exceptional user experiences. Skilled in leveraging modern web technologies to craft innovative digital solutions, and eager to contribute to impactful projects while continually advancing my technical expertise.

Education

Information Technology Institute (ITI)

Oct 2022 - Jun 2023

Professional Web Development and BI, 9-Month Diploma

Faculty of Petroleum and Mining Engineering – Suez University

Oct 2018 - Jun 2022

Petroleum (Drilling) Engineering Department

Grade: Very Good with Honors

Working Experience

Excellent Protection | .NET full-stack developer | Hybrid

Jul 2023 - Present

- Developed and integrated .NET Web APIs to enable seamless specific business communication between our SQL Server database and custom web applications using Angular and ASP.NET MVC in addition to mobile applications.
- Integrated WhatsApp Business API for enhanced customer interactions and customized solutions in CRM Dynamics 365 to streamline business processes.
- Specialized in PayFort integration, ensuring reliable and secure payment processing to improve user experience and transaction reliability.

Projects

Watchy E-Commerce

- Developed a fully functional e-cinema platform allowing users to browse, book, and manage cinema tickets.
- Technologies Used: ASP.NET MVC, C#, HTML/CSS, JavaScript, jQuery, SQL Server, Entity Framework

Mind Mission E-Learning

- Built a full-stack e-learning platform inspired by Udemy, enabling users to browse, purchase, and
 engage with online courses. This application offers a smooth, interactive learning experience for
 students and includes comprehensive course management tools for instructors.
- Technologies Used: ASP.NET Web API, C#, HTML/CSS, JavaScript, jQuery, SQL Server, Entity Framework, Angular

Amazon Tours Invoicing System 8

- On progress project for enabling efficient management and automation of invoice generation, customer billing, and payment tracking
- Technologies Used: ASP.NET Web API, C#, HTML/CSS, JavaScript, jQuery, SQL Server, Entity Framework, Angular

Attendance Management System

- A client-side attendance management system built with JavaScript and jQuery, leveraging JSON Server for data storage and retrieval. Features include real-time attendance tracking, dynamic UI updates, and data management for widely-scale applications.
- Technologies Used: SQL Server (Stored Procedures, Functions, Triggers, Views, Indexing) and SSRS (SQL Server Reporting Services)

SKILLS AND PROFICIENCY

Languages & Frameworks

C#, .NET, ASP.NET Web API, MVC, Blazor, SignalR, JavaScript, TypeScript, Angular

Front-End Development

HTML, CSS, SCSS, SASS, Responsive Design, Bootstrap

Databases

Microsoft SQL Server, SQL, Entity Framework, MongoDB

CRM & Platforms

Microsoft Dynamics 365, Azure DevOps, Git, GitHub

Methodologies

Agile (Scrum), Continuous Integration and Continuous Delivery (CI/CD)

Certifications

Microsoft Certified: Power Platform Functional Consultant Associate 8

Jun 2024

Demonstrate the use of Microsoft Power Platform solutions to simplify, automate, and empower business processes for organizations in the role of a Functional Consultant.

Extracurricular Activities

American Association of Petroleum Geologists | Media Manager | Suez University

Dec 2019

Led a team of media members to strategize, create, and deliver impactful multimedia content, fostering collaboration and ensuring timely execution of projects.
