Professional Summary

.NET Full-Stack Developer with 3 years of experience building scalable enterprise applications across the MENA region. Team Lead for two developers and Project Manager of BelKhidmah, with strong expertise in the .NET ecosystem, backend development, third-party integrations, and business-driven solutions.

Education

Information Technology Institute (ITI) **Oct 2022 – Jun 2023**

Professional Web Development and BI, 9-Month Diploma

Faculty of Petroleum and Mining Engineering – Suez University **Oct 2018 – Jun 2022**

Petroleum (Drilling) Engineering Department

Grade: Very Good with Honors

Working Experience

Excellent Protection | .NET full-stack developer – Team Lead | Hybrid **Jul 2023 – Present**

- Took on Team Lead responsibilities for a two-member development team, coordinating implementation, reviewing technical work, and supporting delivery.
- Become Project Manager for “BelKhidmah”, a MENA-focused platform that centralizes pricing and service packages from recruitment and hourly reservation companies into one application.
- Spearheaded the development of more than 70% of the company’s recruitment and hourly labor platforms across Saudi Arabia and the UAE, serving both B2C and B2B workflows.
- Led the end-to-end development of the hourly workforce module in the company’s SwiftSoft ERP, delivering an integrated and scalable solution using the .NET ecosystem.
- Integrated enterprise and third-party services including Paymob, Firebase, Amazon Payment Services (PayFort), HyperPay, Twilio WhatsApp, and Etisalat SMS.
- Worked with backend infrastructure and enterprise tooling including SQL Server, Hangfire, RabbitMQ, Embraco, IdentityServer, and Microsoft Dynamics 365 CRM.
- Delivered optimized APIs and backend services supporting critical business processes and mobile applications.
- Contributed as a backend interviewer at the 2025 and 2026 ITI Delta Summit in Mansoura, evaluating technical candidates and representing the company’s engineering expertise.

Projects

BelKhidmah

- Managed the project end-to-end to build a centralized MENA platform that gathers pricing, packages, and service offerings from individual recruitment and hourly reservation companies into one marketplace-style application.
- The system is built on “SwiftSoft” -our ERP product-, it syncs the packages from providers every period using background jobs, unify it and view it to clients in a modern mobile application.
- Technologies Used: ASP.NET, SQL Server, Hangfire, Flutter, Paymob, Firebase.

Recruitment & Hourly Reservation SaaS System

- Developed a large-scale recruitment and hourly reservation solution supporting B2C and B2B business flows across Saudi Arabia and the UAE, including candidate onboarding, service workflows, and operational management.
- Delivered two implementations of the system: one using Microsoft Dynamics 365 CRM and another using the company’s in-house SwiftSoft ERP, with integrations for payments and communication services.
- Technologies Used: ASP.NET Web API & MVC, SQL Server, Entity Framework, Firebase, Azure Microsoft Dynamics 365 CRM, Angular.

Mind Mission E-Learning

- Built a full-stack e-learning platform inspired by Udemy, enabling users to browse, purchase, and engage with online courses, with course management capabilities for instructors.
- Technologies Used: ASP.NET Web API, C#, HTML/CSS, JavaScript, jQuery, SQL Server, Entity Framework, Angular.

SKILLS & PROFICIENCY

Backend & Database
C#, .NET, ASP.NET (Web API, MVC), ADO.NET, Dapper, Entity Framework, SQL Server, MongoDB, Blazor, SignalR

Tools, Platforms & Integrations
Azure DevOps, Git, GitHub, CI/CD Pipelines, Hangfire, RabbitMQ, Embraco, IdentityServer, Microsoft Dynamics 365, SwiftSoft ERP, Paymob, Firebase, Twilio WhatsApp, Amazon Pay (PayFort), HyperPay, Paymob, Etisalat SMS

Frontend
Angular, TypeScript, JavaScript, HTML5, CSS3, SCSS/SASS, Bootstrap, Tailwind

Certifications

Microsoft Certified: Power Platform Functional Consultant Associate 🔗 Jun 2024
Certified in designing and implementing business solutions using Microsoft Power Platform.
